

## Weather Preparedness

Power outages, Disasters and Storms! How can you and your family be prepared when the unexpected hits our community? Sylacauga Utilities is on-the-job working for you to keep you ready for anything that may happen.

In the event of:

- Power Outage - Visit [Steps to Restoring Power](#) to figure out what you should and should not do in the event of power outages.
- Are you using a generator? Make sure to look at [Currents Generator Safety](#) to keep your family safe from an accident.
- Tornadoes, Thunderstorms and Hurricanes - Don't wait for storms to hit! Use this handy [Storm Watch Guide](#) to prepare your home inside and out for a storm. Also make sure to use the segment that shows you how to get a disaster supply kit together. If you're ready for any kind of weather, make sure you know what's coming by tuning into your local weather station, weather radio or online visit <http://www.nhc.noaa.gov>

Finally, make sure to visit our printable [storm response reference page](#) complete with listed instructions for any weather or electrical emergency, and complete with phone numbers. It's perfect for printing out to hang on your refrigerator and go over as a family to plan for your safety.
